Warsaw, Poland / London, UK

EXPERIENCE

Lead Developer

PANGAIA

03/2021 - Ongoing London, United Kingdom / Remote

I am leading the transition from using external dev agencies to building in-house dev team. I am responsible for managing agencies' workload, building the team and developing Shopify solutions.

Project Manager & Lead Front-End Developer

Azantic.com

2017 - Ongoing Warsaw, Poland / Remote

I lead a team of designers, front-end and back-end developers on a mission to bring incredible ideas to life while staying transparent.

Front-End Leader

Paladin Software

04/2016 - 04/2020 Krakow, Poland / Los Angeles, California / Remote

I was leading the build and helping with the launch of an app that was used by Joe Biden's team in the 2020 US Presidential Election campaign. Besides that, I had led a team of developers and a designer to redesign 6 web apps and was responsible for all things front-end in the company.

Front End Developer

Bent Pixels

10/2015 - 04/2016 Krakow, Poland

I was working on two main Bent Pixels apps that helped MCN's manage their influencers. BP then turned into Paladin Software.

Web Developer

iwebsitez.com

02/2014 - 10/2015 Bognor Regis, United Kingdom

After joining iwebsitez in Feb 2014, I quickly became the main web developer. I have lead small teams (2-3 people) in creating dozens of websites. This includes custom web applications as well as WordPress sites and e-commerce stores.

SUMMARY

Web development passionate with an unusual love for soft skills. When working, I always thrive to create the best product possible while helping my team members grow.
